

**Concrete
Creations**

*Proudly
made in
USA*

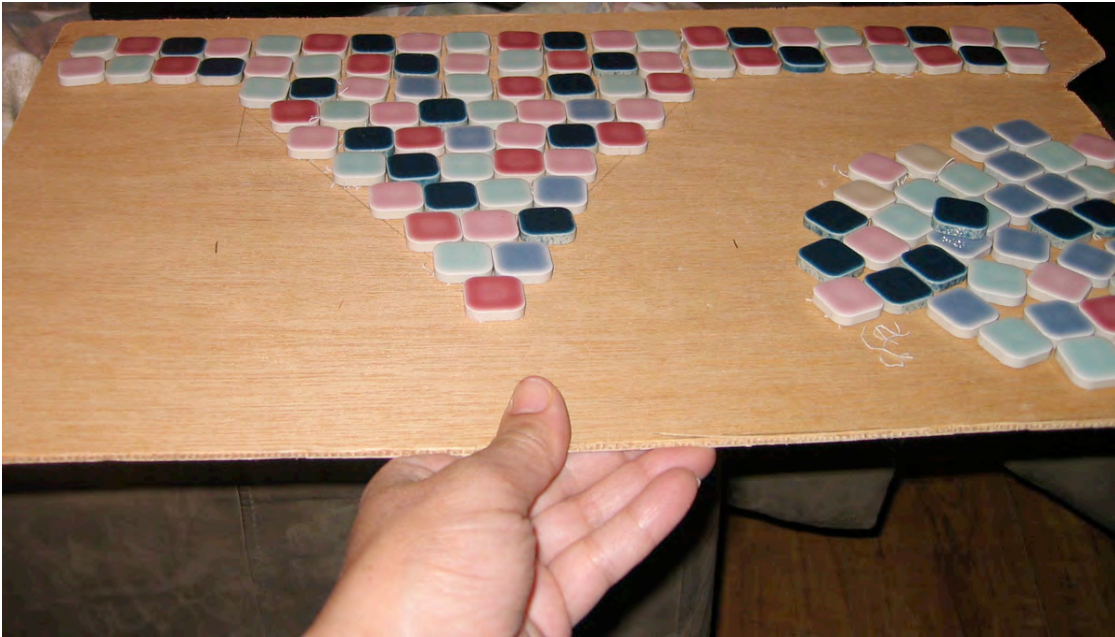

Our self-contained just plug in & enjoy Madera fountain/birdbath.

A beautiful addition for spas, yards, or even interior settings. Perfect for both residential & commercial.

The beauty of the **Madera fountain** is not only the fact that it is *fully customized and can be built in different sizes, with different style Mosaic, and different colors*; it is also totally fully functional out of our shop. **Just add water, plug it in and enjoy it.**

Play around with different styles colors and patterns, and as always have fun.

The **Madera fountain** in our exhibit was 25" w x 30" h, and as usual **can be built in larger sizes.**
